I do not know if any of the above errors have been corrected:  
(ex. 288 Cedeno Gold exists with YANKEES but may not have been corrected with ASTROS)

There are probably additional cards throughout the set with incorrect foil name plates.

#434 Blackman has been previously listed to have a slight break 3/4" from top right instead of a solid top border and another with a "Quick fix" comma blotch. As seen in the photos below, each appears to be very insignificant to most collectors.
